AMERICANS. SUE UNUSUALLY COOL SECRETARY OF STATE UNDER

Illegal Operations of Montemayor.

El Paro, Tex., August 29.—Suit against the Mexican government for the recovery of wheat to the amount of 14,000 gold will be brought in the federal court of the Chinushua district, located in Juarez, by Consul Thos, G. Edwards, acting for American merchents of San Francisco. The suit is the outgrowth of the wholesale scizities of wheat made by the Juarez customs officials some time ago.

The wheat for which action in recovery will be taken was confiscated at the time the seizures were made from Ex-Mayor Montemayor, when fourteen carious of wheat were confiscated on the charge of smuggling. The wheat was among the amount setzed from Moutemayor, but, according to the parties bringing suit, it was the property of American elli-zens, having never been bought by the Juarez official.

It is alleged that the wheat was brought over with a Montemayor shipment on shipper's order, but that the bills of lailing had never been lifted by Montemayor, having remained untouched in the Barco de Minero in Juarez. Therefore, despite the fact that the grain was not the property of Montemayor, it is alleged that the customs officers committed a theft, when they seized the grain without the proper papers to show that it belonged to the guity official.

Customs Officers Blundered

In making the demands for restoration of the amount of the wheat article 102 of the Mexicon customs law will be referred to in the edeavor to show that the customs of Mexico. The article provides that fleers acted contrary to the laws of no shipments shad be received by the customs officers until the original receipt of the goods is forwarded and in view of the fact that no such receipt was presented by Mayor Mentemayor when he had the wheat entered in the Juarez customs house it is declared that the collector of customs was dereited in his duties and that the government is responsible for the value of the wheat.

Wheat is Damaged Wheat Is Damaged

Wheat is Damaged
In the prosecution it will be set forth that the wheat was seized and turned over to the federal court, that other like shipments were allowed to go through to Chimahus, Parral and other points south of Juarez without interference, that the wheat was ordered unloaded from the cars ento the customs house platform and that since then it has been scattered about and damaged by water and dust to the extent that it is valueless.

Insuretors Are Arrested

Inspectors Are Arrested

As a result of the smugging revelations of the past two months three inspectors of the Juarez customs service have been arrested and are new in the Juarez fair. Inspectors Garza and Francisco Cuaron wers placed under arrest several days ago that yesterday mother inspector, whose name the customs officials would not dividing was foliad on a charga of completey in the smugging.

Soliment over the arrest of the ree inspectors is strong and the following profession of the openion is greatly aroused over a occurrence. The men have been asset in full for an indefinite peroccurrence. The placed in fall for an indefinite per-led without a trial. Owing to the fact that the cars were brought over with smuggled goods in daylight in "empty" cars and that there was but one inspector in charge of the yard-at the time the entries were made the service is their blanned for the smuggling rather than any willful dereliction on the part of the inspec-tors. One of the man arrested, in-spector Garka, is an old and tried in-spector and bis arrest has caused much indignation.

Service Is Improved

Service Is Improved Service Is Improved

Before the snuggling revelations
little attention, was given to the railroad customs house yards by the inaportors but since the developments
of the mast two mouths additional
care is being laken to inspect every
thing that enters the yards. Formerly most of the inspectors, with
the chief of the guards, were stationed at the Stanton street bridge to
watch the street ears and passing vehieles but this force hor since been
accorded to us to give the railroad
yards the greatest amount of altertion.

tion.
The inspectors arrested will be charged with complicity in the snug-gling of wheat and marchandise, and gling of wheat and merchandise, and unless they can show no connection with the affair, they will probably spend a long term in full. The invest-igations of the smuggling have been at a standatill in the federal court the while past and it is understood that filling all he done until the new governor of a himmana takes his rest

WEATHER FOR

Case Is Outcome of Alleged Bureau's Weekly Bulletin Shows General Rains Over Territory.

Santa Fe, N. M., August 29.-R. M. Hardinge, section director of the weather bureau, has issued the fol-lowing bulletin for the week just closed:

The weather during the past week was much cooler than is normal at this season, and was cloudy and showery throughout all parts of the territory except the extreme southeast, where the rainfall has been much less than elsewhere.

much less than elsewhere.

In the western counties the heaviset rains occurred generally on the 18th and 19th, seriously increatening railway interests, and causing considerable loss and distress to some of the ranchers. In more northern and easisers counties the general rains began theoday (20th) evening, and continued for two days, theroughly relieving the droutly conditions that explicted over the plains country in general. In several localities heavy had accompanied by thunderstorms, caused considerable local damage.

The following notes, selected from

cd considerable local damage.

The following notes, selected from the resports received this week, will give the conditions more in detail:

Albert, Union Co.—H. M. Hanson—At last we have had fine rains, amounting to 2.47 inches during the week. The highest temperature way 38; lowest, 60.

Alto, Lincoln Co.—J. W. Stephenson—There has been much cloudiness during the week, with local showers at or hear the station every day.

son—There has been much cloudiness during the week, with local showers at or hear the station every day. Total rainfall, 9.93 inch.

Bloomfield, San Juan Co.—Fre'l L. Clerc.—The weather was warm and clear during the first part of the week, and cooler and cloudy during the latter part. Hall that accompanied the storm of the 26th did some damage, and diches were somewhat washed by the high water. The highest temperature was 98; lowest, 48, rainfall, 9.51 inch.

Cast Salazar, Sandoval Co.—Isadoro Mora.—The weather has been cloudy and rains during the week. Total rainfall, 1.00 inch.

Cartsbad, Eddy Co.—Raymond DePue.—The weather has been warm, and there has been much humidity in the air, but the rainfall was very light. Good rains are badly neded. The highest temperature was 23; lowest, 65; rainfall, trace.

Chama, Rio Arfiba Co.—Geo. Huth—Cloudy weather with good showers has prevalled during the week. The alghest temperature was 89; lowest, 19; rainfall, 0.75 inch.

Cloudcroft, Otero Co.—John Hef-ker.—The weather has been cool and cloudy during the week with sood and cloudy during the week with sood and

On Border of Nervous Breakdown, Statesman is Being Put Through Health Giving Paces.

This Shows How Trainer Billy Mul-doon Cracks His Whip and Makes the August Secretary of State "Jump Through" at His Command.

Billy Muldoon, as all New York has known him for many a year, is the last resort agetor of many a year, is the last resort agetor of many a formous national character, broken down by overwork and worry, has been remade at his hands.

Muldoon's treatment might be cultivat a nature treatment, as those who train under it are compelled to revert hack to nature in its primitive im-

New Yorw. August 29.—When Eilhu Hoot.accretary of state stepped from President Rooseveit's big toursing car onto the wide vermula of Billy Muddoon's santarium, on Long island sound, near White Plains, he was mgt by the athletic Billy, to when he said:

"Mr. Muldoon I need your services. I am run down physiaelly and I come."

"Mr. Muldoon I need your services. I am run down physicselly and I want to stay here a few days and have you build me up. My friend, Joe Meate, tells me that you possess the secret of perpetual youth. Today I sel like an old man, while I want o be a hoy."

This is what the control of the co

the secretary of state:

"I am very glad to meet you Mr. Root, but if you come in here, i want you to understant that you are just plain Mr. Root to me, and I'll be your boss every minute in the twenty-four hours of the day. Will you promise me that you will do what I tell you."

Through the Paces

The secretary smillingly acquiesced.

The secretary smillingly acquiesced and Muldoen immediately started to distribute the paces which, in his remarkable (reatment, comprise the most rigorous exercise that morts) in man can bear. Here is the daily require only a few days to man can bear. Here is the daily require of secretary Rost's life to lay:

All the secretary smillingly acquiesced and alternative.

Of course no one is put to this task who is physically anable. Muldoen may it will require only a few days treatment to put the secretary of state in shape for the walk.

Returning to the samularium it is treatment to put the secretary state in shape for the walk.

Returning to the santiarium strip gain and a hall; then citis rinthes and almore. After dinner patients are allowed to foll for home.

clathes and almans. After dimer the patients are allowed to foll for an hour. Then there is a long, leisurely walk over meadows, through woods and across a cresk. The plate policing at supper time is a stirring alant anaemics and dyspeptics have begine voracious.

Following supper there is another folling period, and it 9 o'clock every-body is not only willing to go to led, but does so with a delicious expectancy. Hath, rub down and dress -Breakfast. -Horseback ride for two and 12:00 Dinner; then bestrely walk

Muldoon will not freat anyone who refuses to follow his orders.

Rosedule, Savorro Co.—W. H. Mar-fix—The weather has been cloudy, with daily showers. The highest fem-berature was 84; lowest, 52; rainfall, 7.54 bedoes 2.64 Inches.
